

HP Latex 700 W Printer

Win high-value jobs, equipped with white ink, and sharpen your sustainability edge with HP Latex

Access white and produce the highest value jobs

- Extend your portfolio into high-margin stickers and window graphics with the whitest white.¹
- Print white without complexity—automatic recirculation and printhead cleaning reduce manual purging.
- Deliver vivid colors at high speed, get striking contrast using pure blacks, and expect sharp 4-point text.
- Choose from a wide application range covering banners/textiles/poster paper, canvas, wallpaper, and vinyl.

Beat your deadlines with smart, efficient printing

- Fast saturated color up to 334 ft²/hr outdoor, 226 ft²/hr indoor.²
- Control print operations virtually anytime, anywhere with HP PrintOS tools, and grow with HP Learn trainings.
- Work fast processing reprints and multi-copy jobs with a smart front panel, and store up to 100 jobs.
- Enjoy fast and easy spindle-less loading and media access for rolls up to 121 lb (55 kg).

GO BEYOND—Lead with environmental certifications³

- Contribute to a comfortable⁴ working environment with water-based HP Latex Ink technology.
- Differentiate your business with environmental certifications⁵—including UL ECOLOGO^{®5} and EPEAT.⁶
- Access the most sensitive spaces with odorless prints⁴ and compatibility with a wide range of alternative substrates.⁷
- Reduce your plastics consumption with carton-based cartridge⁸ and labelless supplies; free recycling via HP Planet Partners.⁹

This printer is intended to work only with cartridges that have a new or reused HP chip, and it uses dynamic security measures to block cartridges using a non-HP chip. Periodic firmware updates will maintain the effectiveness of these measures and block cartridges that previously worked. A reused HP chip enables the use of reused, remanufactured, and refilled cartridges. More at: <http://www.hp.com/learn/ds>

¹ Whitest white based on ISO/DIS 23498 compared to competitive alternatives using solvent and UV technologies under \$50,000 USD as of May, 2020. Test performed on black opaque self-adhesive vinyl (L*:4.16 – a:0.48– b:2.34) with 160% UF printmode using HP 832 1-liter White Latex Ink Cartridge. Visual opacity = 91%.

² Outdoor mode (Banner) 4-pass, 100%. Indoor mode (SAV) 6-pass, 100%. Based on internal HP testing in September 2020 on Avery 3001. Print speed may vary due to the adaptive printing mechanism to avoid image quality defects.

³ Based on internal competitive analysis with public information. Applicable to HP Latex technology compared to competitive large format printing alternatives using solvent and UV technologies. See individual product data sheets for more information at <https://hp.com/go/latex>

⁴ Applicable to HP Latex Inks. Based on sensory evaluations conducted by Odournet, done according to VDI Guideline 3882 where 832 and 873 inks were characterized as “weak” in odor intensity and “neutral” for hedonic tone. There is a broad set of media with very different odor profiles. Some of the media can affect the odor performance of the final print.

⁵ UL ECOLOGO[®] Certified HP 832, HP 872, HP 873, and 882 Latex Inks and HP 864, 865, 865, 886, 867, 869, and 870 PageWide XL Inks meet a range of stringent human health and environmental considerations. Verified as of the publishing date in September 2023. For more details, please refer to the UL ECOLOGO[®] database at <https://spot.ul.com/main-app/products/catalog/> or see <https://www.ul.com/EL>

⁶ Applicable to select HP Latex printers. EPEAT registered where applicable/supported. See <https://epeat.net> for registration status by country.

⁷ HP applications experts have evaluated the catalog of media listed in the HP Media Locator based on internal criteria to identify those that provide alternative solutions with certain environmental benefits compared to the typical media within the same application type. The information in media locator is provided by the media substrate vendors. HP is not responsible for the veracity of the information from third-party companies published on the HP website. See <https://www.hp.com/go/mediasolutionslocator>

⁸ Applicable to HP 832. Plastic reduction based on moving from plastic ink cartridge to cardboard ink cartridges, with annual manufacturing saving of 33 tons of plastic based on average units of HP 831 and HP 831A ink cartridges from 2018 to 2020.

¹ Print speeds may vary due to the adaptive printing mechanism to avoid image quality defects.
² The color variation between printed jobs has been measured at 12 pass mode on vinyl media. Reflective measurements on a 943 color target under CIE standard illuminant D50, and according to the standard CIEDE2000 as per CIE Draft Standard DS 014-6/E:2012. 5% of colors may experience variations above 1.5 dE2000. Backlit substrates measured in transmission mode may yield different results.
³ Wiper roller is an optional accessory.
⁴ Automatic horizontal cutter is for use with thinner banners and canvas only. It is recommended to perform a test.
⁵ Textile Kit Accessory required for long runs of textile and porous textile.
⁶ Excluding Type 2 DFE (Digital Front End) as defined in Energy Star[®] Product Specification for Imaging Equipment version 3.1.
⁷ Total power measured in sleep mode including the Digital Front End contained on the product.
⁸ UL GREENGUARD Gold Certification to UL 2818 demonstrates that products are certified to UL's GREENGUARD standards for low chemical emissions into indoor air during product usage. For more information, visit <http://www.ul.com/gg> or <http://www.greenguard.org>
